CROW WING COUNTY ANNOUNCES PUBLIC COMMENT PERIOD FOR CRAGUN'S RESORT ENVIRONMENTAL ASSESSMENT WORKSHEET

Crow Wing County announces that an Environmental Assessment Worksheet (EAWS) has been prepared for a proposed golf course expansion and residential development at Cragun's Resort located in East Gull Lake, MN and the First Assessment District. The proposed project will consist of the construction of an 18 hole golf course, 31 clustered residential units and 8 single family units on approximately 400 acres of land. The project is located primarily in Section 27 of the First Assessment District with a small part of the project within the City of East Gull Lake.

An EAW is a document that is designed to set out the basic facts necessary to determine whether an Environmental Impact Statement (EIS) is required for a proposed action. The purpose of the EAW process is to disclose information about potential environmental impacts of a project. The worksheet contains 20 questions focusing on the project's environmental setting, the potential for environmental harm, and plans to reduce the harm.

Public comments on the EAW should be submitted in writing to:
