MOWING COMPLETED ON COUNTY NON-MOTORIZED TRAIL SYSTEM

Crow Wing County Land Services has recently completed the annual mowing of 13 non-motorized trails located throughout the county. The trails are available for equestrian riders, hiking, mountain biking, hunting, and other uses.

Crow Wing County Environmental Services Supervisor, Ryan Simonson, stated "These trails are in great shape this season for any number of non-motorized activities." Simonson added, "The trails are open year round for residents and visitors to enjoy the natural beauty our region has to offer."

The Wolf Lake Trail, located east of Brainerd, and Larson Lake Trail, near Deerwood, are groomed cross-country ski trails in the winter, and are also great for many non-motorized trail activities during other seasons, especially horseback riding in the fall due to the large parking area that will accommodate horse trailers.

The County encourages residents and visitors to experience these non-motorized trail systems. Locations and maps of the non-motorized trails can be found on the County's website at:

Crow Wing County Land Services manages 105,000 acres of forest land for timber production and diverse recreational opportunities for multiple users. The sale of timber at public auctions during the year funds the county's management of these lands, while providing revenues to local communities. County forest lands are managed to strict environmental standards established by both the Sustainable Forestry Initiative and the Minnesota Forest Resources Council.
