## **Mowing Completed on County Non-Motorized Trail System**

Crow Wing County Land Services has recently completed the annual mowing of 13 non-motorized trails located throughout the county. The trails are available for equestrian riders, hiking, mountain biking, hunting and other uses. Each hunter/hiker trail is mowed twice per year, once starting in June and again in September.

“These trails are in great shape this season for any number of non-motorized activities. The trails are open year-round for residents and visitors to enjoy the natural beauty our region has to offer. ”said Tom Strack, Environmental Services Supervisor. Crow Wing County manages 6 County Parks, 13 non-motorized hunter/hiker trails, 8 OHV trails, 5 cross country ski trails, 2 mountain bike trails and hundreds of miles of snowmobile trails, all of which are funded from the sale of timber and not with levy dollars.

The County encourages residents and visitors to experience these non-motorized trail systems this fall. Locations and maps of the non-motorized trails can be found on the county’s web-site at: <https://www.crowwing.gov/289/Recreation> or by stopping by Land Services to pick up a printed trail brochure.

Crow Wing County Land Services manages 105,000 acres of forest land for timber production and diverse recreational opportunities for multiple users. The sale of timber at public auctions during the year funds the county’s management of these lands, while providing revenues to local communities. County forest lands are managed to strict environmental standards established by both the Sustainable Forestry Initiative® and the Minnesota Forest Resources Council.
