To: Residents on County Road 115

Re: CP 18-115-01
Mailbox Relocation and Pavement Removal – Dove Lane to County Road 127

Thank you for your patience and understanding with the reconstruction of County Road (CR) 115. Road grading, aggregate base, and concrete curb between Hwy 371 and Dove Lane is nearly complete. Beginning next week, the Contractor will resume work between Dove Lane and CR 127.

On Monday June 26th, the contractor will install temporary mailboxes at Dove Lane. This location is approved by the Post Office and will be the primary location for mail delivery. The Contractor will remove your existing mailbox and support and leave it near your entrance. After completion of paving operations, new crash tested mailbox supports approved by the Commissioner of Transportation and the Postmaster General will be installed near your present location. The Contractor will install a mailbox that you provide on the new support.

On Tuesday June 27th, the pavement will be removed from Dove Lane to CR 127. The roadway and driveway aprons will remain gravel until grading operations are complete. Road grading is planned to begin at Dove Lane and progress at approximately 500 feet per day toward CR 127.

Please feel free to call or email with questions.

Thank you.

Sincerely,
Steve Stroschein
