Also available on the website will be another stakeholder survey. This questionnaire is intended to compile feedback regarding the use of specific roadway improvement components and their potential impacts on the existing setting of CR 115. This information will be used to guide the ongoing scoping process and provide a means to narrow the wide range of alternatives. The survey will become available on October 24 and remain active until December 2, 2013. Paper copies of the questionnaire will be mailed along with a self-addressed envelope to adjoining property owners. Participants are encouraged to carefully review all of the available information prior to completing the survey.

If you have any questions or concerns regarding this process, please contact Luke Wehseler, Project Manager, at luke.wehseler@crowwing.us or 218-824-1110.
