# PROTECT OUR LAKES!

**YOU CAN HELP**

## #1 Leave the water at the lake

Drain water from boat, motor, live wells and bait buckets before leaving the lake.

## #2 Clean up your rig

Remove plants, mud, and other debris from your boat and trailer.

## #3 Dry it out

Do not move docks and lifts from one body of water to another without sufficient time to dry. This is a good idea for boats as well.

## #4 Spread the word, not the species

Unless it came from that body of water, don't put it in there. This includes anything from your aquarium.

Call 218-824-1125 to speak with one of our specialists. We're ready to help you.
